Supply chain complexity, increased regulations, and growing shipper expectations have increased the likelihood of claims against all players in the supply chain. This means that customs brokers and freight forwarders can be held liable for mistakes, errors, and more.

Whether the allegations are frivolous or not, the legal cost of defending claims can be financially crippling. Don’t wait, get complete cargo insurance for you and your clients - fill out the “get a quote” form today!

“ WIS has given us peace of mind, allowing us to grow our business in ways we never dreamed possible. ”
